**Product description**

**Material**

Granite sinks Cristalite Plus: Schock sinks are composed of approx. 80 % quartz, the hardest component of granite. The quartz is bound by the highest quality of acrylic. The composition of acrylic and quartz makes the sinks extremely resistant against scratches and dirt and is responsible for their longevity.  
**Only available for flushmount installation.**

**Flush-mounted installation: Recommendation for the choice of worktop:**

We recommend installation in worktops made of ceramic, granite, artificial stone (e.g. Corian or Varicor) or solid wood. We do not recommend installation in coated chipboard.
