Product description

Lemonstone is a universal cleaning agent for all smooth and shining surfaces. It cleans, degreases, decalcifies and polishes everything in one single step free of toxins and acids. Due to its consistency, lemonstone is very gentle on the material and has a high level of efficiency. In combination with shampoo sponges or a microfiber cloth, lemonstone has proven successful in many households. Please wet the sponge with lots of cold water and let it foam. Please also re-polish or clean with a dry cloth.
